A Sunday School was organized at
Post Oak Sunday, with Mr. Benjamin
McMahan as Superintendent and Har-
ry McChesney as Secretary. Thirty-
five names were enrolled.

The Presbyterian and Methodist
congregations united and held a sacra-
mental meeting at the Methodist
church Sunday. Rev. L. O. Spencer
preached a very interesting sermon.

A dozen bright street lamps illu-
minate a portion of the business part of
Marion, and the advertising columns
of the Press illuminate some feet
concerning some of the business
men.

We have received a copy of the
Greeley county, Kansas, Gazette, and
in the advertising columns is the name
of Charlie G. Wilson, an old ex-Con-
tinent, who is now engaged in the
real estate business.

There is a conflict between the
Board of Town Trustees and Dr.
W. Crawford in reference to open-
ing a street which runs through the
taxor's property. Litigation will prob-
ably follow.

Mr. D. N. Stinson and his good
wife left for Norris City, Ill., their
home, last Friday. Two better people
never left a community, and no one
has more friends in Marion than
Mr. and Mrs. Stinson.

Mr. F. E. Robertson and lady,
Uniontown, are in town. Mr. Rob-
ertson upon his duties as storekeeper
and gauger at the distillery yesterday.
He is a pleasant, entertaining gen-
tleman, and he and his lady are valu-
able acquisitions to the community.

A street car with a broken axle
and south of the jail is being repa-
ired. Marion is getting to be a
city, and when the railroad strikes
Judge Dowell's town in Kansas can
be chucked down in one of her
leaving a wagon way on each side.

Elections in many Illinois
last week in which "Honest" and
"Honest" were the most important
issues, resulted in a victory for the
Union. The South is a stronger
Union section than the North, and
and Georgia are the banner republi-
can States in the South.

Clement & Pierce got return from
four hogheads of tobacco last week,
two last and two lugs for a total
of \$3.90 and \$2.00 for lugs \$1.00 and
\$1.00. They estimate it cost them
a hundred to price, put in the
market and sell, and deducting \$1
from their sales leaves \$2.90, or
\$0.85, and \$0.00.

Mr. Langtry, of Hopkins county, is
attending the Crittenden Spring He-
at suffer from dyspepsia and
he says that the water of our Spring
has afforded him great relief.
He tried Dawson Springs, and the
water did him no good. When the
railroad is completed to Marion the
Crittenden Springs will regain their
former status.

Mr. J. J. Hilyard, of Caldwell county,
pent two or three days in town last
week. Mr. Hilyard has been paying
railroad tax in Caldwell county for
years, and knows something of the
conventions; yet he thinks the people
of this county have an excellent op-
portunity to get a road, and should
not hesitate to accept the proposition
made them.

A PROBLEM.

A reading of the orders of the
court disclose the fact that the
bondholders of the county and
preference a favorable vote for the
tax, and in this county. If the
tax is elected, the court will issue
the bonds in denominations of \$100,
and the county can buy one of
the bonds or as many as he
wants. These are men who have ex-
pressed themselves as being willing to
give the road but are opposed to
the tax. These men are to be com-
mended for their liberality; it is pri-
marily evidence that they believe
the road will add to their interest and
the status of the county, and in this
the spirit of commendable enter-
prise and it is only the hardships
the taxon has brought upon the
people that makes them
wary. The mode proposed for rais-
ing the money is as follows: As the amount
of the bonds is small in magnitude when
compared with what other counties
have, there can be no hardship.
The facts can show. Now as the
amount of a man owing pro-
prietor is \$2,500, the amount of the tax is
\$100 in preference to the bonds. Suppose the tax is
elected the bonds are issued in de-
nominations of \$100. Let the man
owning the property to donate the \$100 to
the road fund. That sum is a bond
for the road. The bond bears six per cent
interest, and consequently the invest-
ment will yield a dividend of \$6, the
amount that is the interest on the
bonds is \$6 a year, and the
man gets this. Assuming that he
owns \$2,500 worth of taxable property
he would pay the county's rail-
road subscription, \$25,000, in seven
equal annual payments, a tax
of \$3,571 on the \$100 worth of prop-
erty is levied. At this rate the owner
of the \$2,500 worth of property pays
\$3,571 each year. Now the first
year his bond has yielded him \$6 in
interest, consequently the interest on
the bond has paid his tax and given
him a profit besides. The second year
he pays his \$3 tax, and one sev-
enth of his \$100 bond having been
paid back to him, besides the interest,
he has interest on \$85.72. The in-
terest on this at 6 per cent amounts
to \$5.14. Here again the interest on
the bond pays his tax and gives him 14
cents profit besides, and he gets
\$85.86 more of the \$100 he invested in
bonds to put in his pocket. The
third year his tax amounts to 71 cents
more than the interest on the residue
of the bond.

The fourth year his tax amounts to
\$1.42 more than the interest on the
residue of his bond.
The fifth year his tax amounts to
\$2.14 more than his interest.
The sixth year his tax amounts to
\$2.86 more than his interest.
The seventh year the tax amounts
to \$3.57 more than the interest on the
residue of his bond. Now each year
he has received \$14.28 of his \$100 and
the residue of the seventh year he has
received all of the \$100 and his tax
is amounting to about \$10.99 more
than the interest on the bond during
the period. In other words, he has
paid about \$10.99 railroad tax, and
has received \$14.28 from the bond.

Now get your school teachers to
make a calculation for you and you
will find that it is nearly correct.
Which is the most reasonable thing
to do, make a gift of the \$100, or
to propose, or to vote the taxor's
property. Litigation will prob-
ably follow.

LOUISVILLE TOBACCO MARKET.

(Furnished by Glover & Durrett—Louis-
ville Tobacco Warehouse.)

The sales for the past week have been
very large, and the offerings have em-
braced an unusually larger per cent of
tobacco in bad conditions, which has
sold at ruinously low figures.

The order of tobacco is now a very
important factor in selling. Extra
good tobacco remains steady.
Sales for the week 3216 hhd's, sales
since January 1st 47245 hhd's. Receipts
for the week 2350 hhd's.

The following quotations represent
our market of new dark tobacco:
Trash \$1.50 to \$2.00
Com'n to med'n lugs 2.50 to 2.75
Good lugs 2.50 to 4.00
Com'n to med'n leaf 3.50 to 5.00
Good to fine leaf 5.50 to 7.00
Leaf of extra length 7.00 to 8.00
Wrappery leaf 8.00 to 15.00

A little child of Mr. Frank Wood-
side, who lives a few miles East of
Marion, was fatally burned Friday
evening and died the following day.
During the absence of its mother its
clothes accidentally caught fire; she
heard its cries, ran to it and attempt-
ed to smother the flames by wrapping
a quilt around the burning child, but
the quilt caught fire and before the
flames were extinguished the little
fellow was fatally injured.

MARION, Ky., March 12 '85.
Messrs Pierce & Co.
Gentlemen.

Last year I used the "Home-
stead" and the fertilizers for tobacco
and my experience is that the
"Homestead" is the best and cheapest.
I shall use it again this year and ad-
vise all farmers who want to raise
good corn and tobacco to do the same
it pays big.
W. H. Crow.

Pierce & Co., Marion, Ky.
I used the "Homestead" Corn
Growth on an old field last year and
I nearly doubled my crop. It pays
big and I advise all farmers to use the
"Homestead."

GENTS:
I purchased of you in 1885,
1000 pounds of National Tobacco
Growth. I used this on my farm in
growing my crop of tobacco and corn.
I heretofore used the Homestead To-
bacco Growth, I had good results from
it. I am perfectly satisfied with the
results of the National in my tobacco
and corn crops. And am convinced
by actual experience that it is as good
if not better than the Homestead. I
will use the National again this year.
